Subject: Update

Shannon, it is almost 2 pm and I have heard nothing from you regarding a severance settlement. I have researched attorneys and I am going to go with Phillips and Cohen to litigate as they have the best track record with unethical Healthcare facilities ever. Mr. Valois is a good attorney but this case is way bigger than his capability. This is at a national level. I have talked them this am and they are ready to take the case as they are fully aware of the multiple scandals in the news about Centra to include EW Tibbs and Johnathan Warner. I have not given them any details in the case yet since I have been waiting to hear from you before I move forward. They are anxious to meet with me and I need to do something as you are not acting to provide any sort of severance or most importantly to stop the unethical behavior internally that has started all this. I need to know your intent by the end of the day or I am moving forward with this firm.

Kim

Phillips and Cohen

The biggest whistleblower settlements ever were largely a result of qui tam cases against GlaxoSmithKline (\$3 billion) and Pfizer (\$2.3 billion) brought by Phillips & Cohen.

Whistleblower cases under the False Claims Act are lawsuits against companies that contain whistleblower claims of fraud and misconduct by those companies. The whistleblower is usually a current or former employee, but can be anyone who knows about the fraud or misconduct. (Whistleblower cases under other government programs, such as the Securities and Exchange Commission, follow a different process). Phillips & Cohen has the experience, knowledge and resources that make a difference in the outcome of our clients' whistleblower cases.

Our record of success — more than \$12.3 billion recovered due to our whistleblower cases — is unmatched by any other law firm. We have won for our clients more than \$1.1 billion in whistleblower rewards.

Among our whistleblower awards are three from the SEC whistleblower program, including one of the largest SEC whistleblower awards paid to date — more than \$32 million — which went to a client who resides outside the US. Two other clients received SEC whistleblower awards of \$3 million and \$325,000. We represent many other clients who are assisting the SEC in matters we cannot yet disclose.

Our record-setting whistleblower cases include:

The largest healthcare fraud settlement (\$3 billion — GlaxoSmithKline).

The second largest healthcare fraud settlement (\$2.3 billion — Pfizer Inc.).

The largest civil settlement of a healthcare fraud case involving solely kickback allegations (\$400 million — DaVita Healthcare Partners).

The largest amount ever paid by a defense contractor in a qui tam case (\$325 million – Northrop Grumman).
 Largest settlement ever paid by a medical lab company for a faulty product (\$302 million – Quest Diagnostics).
 Below is more information about our biggest whistleblower cases, including qui tam cases against pharma companies, hospitals, investment banks, tech companies and defense contractors. Note: We don't list details about our successful SEC whistleblower cases to protect the identities of our clients who filed confidential claims with the SEC.

PHILLIPS & COHEN'S BIGGEST WHISTLEBLOWER CASES

GLAXOSMITHKLINE - \$3 BILLION

PFIZER INC. - \$2.3 BILLION
